NEWS for Immediate Release

Vioneer Announces OneTouch Scanning To BOLT Bridge for Laserfiche

New OneTouch Link to be launched and demonstrated at the 2009 Laserfiche Institute Conference this week in Los Angeles

Pleasanton, CALIFORNIA – January 12, 2009 – Vioneer®, Inc., a leader in intelligent imaging solutions and BOLT Document Management, an award-winning Laserfiche® Value Added Reseller and a Laserfiche [Professional Development Partner](#), today announced a certified Vioneer OneTouch Link to BOLT Bridge. Using the [Vioneer OneTouch® Links Software Development Kit](#) (SDK), [BOLT](#) developed a link that allows users to scan documents from a Xerox® DocuMate® or Vioneer scanner directly into Laserfiche with the touch of a single button. Demonstrations of the new link will be given at the Vioneer booth during the [2009 Laserfiche Institute Conference](#) being held this week at the Hilton LAX in Los Angeles, California.

[BOLT Bridge](#) allows users to define and store a variety of document profiles for frequently scanned documents including information such as document naming, indexing, and routing. Laserfiche users can scan on-the-fly directly into Laserfiche by simply selecting the desired profile in as little as one touch of a button or one click of the mouse. More than 25,000 government agencies, Fortune 1000 corporations, school districts and universities around the world use [Laserfiche award-winning software](#) as their enterprise document management solution.

“We have watched Laserfiche applications mature from simple archival systems into powerful document management,” said Jeff Nelson, vice president of Consulting & Sales at BOLT. “This has also changed document capture from centralized scanning to distributed day-forward scanning. The Vioneer OneTouch feature presented us with the ideal scanner platform for the development of BOLT Bridge. The result is dramatically enhanced distributed scanning for Laserfiche.”

“The BOLT Bridge OneTouch Link provides an easy and economical way of deploying distributed scanning across a Laserfiche network,” said John Dexter, vice president of business development at Vioneer. “Using Vioneer OneTouch, users can deploy a powerful software package that is very manageable with minimal end user training.”

Win a Xerox scanner

See the action live at the 2009 Laserfiche Institute Conference. Vioneer has donated five Xerox scanners to be given away at the [“OneTouch scanning to Laserfiche with BOLT Bridge”](#) class that will be presented by Tony Borntrager on Wednesday at the Laserfiche conference.

Availability

Intelligent Imaging Solutions In Just One Touch

BOLT Bridge has been tested and certified by Visioneer for OneTouch. The BOLT Bridge OneTouch Link to Laserfiche is available for purchase from BOLT at <http://www.boltbridge.com>.

Visioneer SDK for ISVs

The Visioneer OneTouch Links SDK is a wizard-based template that can be used to easily implement new functionality within the Visioneer OneTouch interface. Links developed with the OneTouch Links SDK will have access to all OneTouch functions, including the benefits of Kofax VRS technology that is integrated into Visioneer OneTouch. Links can be created to provide scan-to destinations, such as applications, devices (printers or fax servers) or locations (network or local folders).

The OneTouch Links SDK list price is \$499, which includes a support component, and is available from Visioneer. For more information, developers should contact the Visioneer business development team at onetouchsdk@visioneer.com.

About Visioneer

Visioneer provides a broad range of scanning solutions for the desktop, distributed and departmental document imaging markets as well as the mobile and remote business scanning segments. In 2003, Visioneer combined its leading scanner technology with the Xerox brand recognition to develop the Xerox DocuMate product line. Visioneer and Xerox DocuMate high-performance business scanners and imaging software solutions offer users speed, image quality, advanced paper handling and ease-of-use with exclusive Visioneer OneTouch® technology. For additional information on Visioneer and Xerox scanning solutions, visit www.visioneer.com or www.xeroxscanners.com.
