visioneer® **9650 USB**

Super Fast 12 Pages Per Minute Scanning!

The 42-bit color Visioneer 9650 USB scanner with Built-in Automatic Document Feeder (ADF) delivers excellent performance, unbeaten quality, and unmatched ease of use making it the perfect office productivity tool.

Built-in Automatic Document Feeder Makes Scanning Multi-page Documents Simple

The built-in Automatic Document Feeder allows scanning of up to 50 pages at a time. With the 9650 USB ADF, you are able to scan up to legal sized (8.5"x14") documents. The 600x1200 dpi Visioneer 9650USB delivers lightning-fast 42-bit scans.

Easy to Set Up and Use

Just install the software, plug the Visioneer 9650 USB into your computer's USB port and you are ready to scan! There is no need to open the computer to install an interface card, or worry about IRQs, DMAs, SCSI IDs or other settings.

Organize and Manage all your paper-based information from one easy-to-use screen with ScanSoft PaperPort Deluxe

Organize

- Simply drag and drop your scanned documents to and from color-coded folders on your desktop making filing and retrieving paperwork a cinch.

Fax and Email

- Just drag any scanned document to your fax or email icon, select recipients name from your address book, and PaperPort automatically launches your e-mail program (Outlook, Outlook Express, Eudora, Lotus Notes, and others) with documents attached as Group 4 TIF, PaperPort, or many other formats!

Annotation Tools

- Add notes, arrows and annotations to your scanned documents.

Featuring:

- Automatic Document Feeder (ADF) and Flatbed Scanning
- Scan up to legal size documents using the ADF
- ADF Speed up to 12ppm at 200 dpi black and white
- ADF Capacity maximum 50 page capacity
- Supports Windows® 98/Me/2000/XP
- USB Interface
- 600 x 1200 dpi optical resolution
- 1200 dpi hardware supersampling
- 42-bit color
(14-bit A/D converter recognizes over 4.3 trillion colors internally)

Software Included:

ScanSoft PaperPort® Deluxe™ Software

The award-winning document management software

- Organize all your documents
- Communicate and share your documents by fax, email or the web

ScanSoft TextBridge® Pro OCR

- Transform scanned documents into editable, formatted text
- The powerful OCR engine accurately renders documents with multiple columns

The Visioneer 9650 USB scanner with built-in automatic document feeder delivers excellent performance. Small enough to set on your desktop.

Professional Software Included:

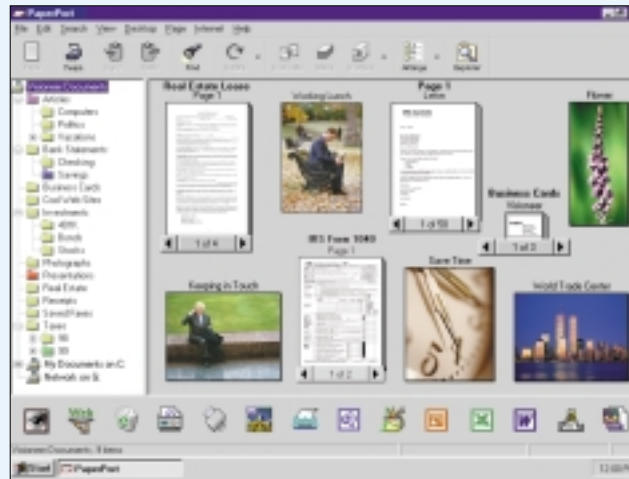

PaperPort Deluxe software gives you crisp on-screen images in just a few seconds. It easily manages all your documents and images and works with most popular applications.

TextBridge Pro OCR turns scanned documents into editable, formatted text. Columns, graphics, text and tables appear right where they should be.

PaperPort Links™ let you drag and drop your documents and images instantly onto linked applications.

WebPublisher Link creates HTML links and posts your scanned pictures to the Internet with a few mouse clicks.

PAPERPORT DELUXE™

Advanced Filing System With Network Support

Easily file your documents and images the way you organize paper documents - in file folders on local or network drives. Put folders within folders and color-code them for easier arrangement.

Manage All of Your Files With Thumbnails

PaperPort Deluxe creates thumbnails for 38 file types including Microsoft Office and other popular image file formats.

Quickly Fill Scanned Forms

FormTyper™ automatically converts scanned forms into electronic forms, including "Tab and Type" data fields.

Drag and drop to your favorite Windows® applications

PaperPort Deluxe automatically builds graphical links to supported installed applications. Simply drag a document thumbnail onto the link icon and your document is on its way to that application! PaperPort Deluxe works with hundreds of applications including most popular image-editing, office productivity, fax and e-mail applications.

TextBridge PRO

TextBridge Pro OCR automatically converts scanned documents into editable text. Columns, graphics, text and tables appear right where they should be. Converts tabular data into word processing documents, cell tables or MS Excel and Lotus 1-2-3 spreadsheets.
