Colorado 2400u Scanner

Share the Moment

With the PrimaScan Colorado 2400u scanner, your memorable photos stay as fresh as the day you took them.

Just scan your snapshots and quickly create projects using MGI PhotoSuite III SE's built-in templates then send them to family and friends. The Colorado 2400u features a USB interface for quick and easy set up and includes all the software you need to start scanning right away, making it easy to Share the Moment.

Easy to Set up, Easy to Use

Just install the software, plug the Colorado 2400u into your computer's USB Port and you are ready to scan! With USB, you don't have to worry about compatibility with your other peripherals.

Better Resolution for More Accurate Scans

The Colorado 2400u scans at an optical resolution of 600 x 1200 dpi. Through software interpolation this can be further enhanced to 2400 dpi. So whatever your requirements, from Web to OCR to high-resolution graphics, the 2400u can handle it.

Flexible Scanning Platform

Easily scan any kind of document – everything from business cards and memos to books and magazines. The top of the scanner can even be elevated or removed to accommodate books and bound documents.

Award-winning Software

ScanSoft Pajis Pro creates thumbnails of your documents and images making them easy to organize. Drag and drop your scans on the SendToBar to use them in other applications.

ScanSoft TextBridge Pro OCR incorporates powerful Optical Character Recognition (OCR) technology and an easy-to-use interface so you can quickly convert scanned documents into editable text files.

MGI PhotoSuite III SE lets you easily capture, touch-up, transform, organize, create, show and share photos with family, friends and business associates. High quality templates create everything from calendars to business stationary. MGI PhotoSuite III SE delivers unparalleled functionality, productivity and entertainment to home and business users.
