

Smart Scanning Made Simple

ONETOUCH 8600 SCANNER

The Visioneer® OneTouch™ technology is changing the way people think about and use scanners, thanks to its revolutionary integration of hardware and software. The OneTouch 8600 is not just an incredibly powerful way to scan; it is the faster, smarter, easier way to fax, copy, e-mail, or publish documents. With its dedicated function buttons and powerful software integration, it is the office tool you have been waiting for.

Lightning Fast Scan Times With Visioneer J.E.T. Compression

The OneTouch 8600 features Visioneer's JPEG Enhancement Technology (JET). Visioneer scanners using JET have a built-in compression engine that allows the user to scan large files very quickly. Through JET, the OneTouch 8600 can scan documents at speeds up to two times faster than comparable scanners. The compression engine can easily be tuned to provide smaller files or better image quality.

Easy to Set Up and Use

Just install the software, plug the Visioneer OneTouch 8600 into your computer's parallel port or Universal Serial Bus and you are ready to scan! There is no need to open the computer to install an interface card, or worry about IRQs, DMAs, SCSI IDs or other settings.

Visioneer's Breakthrough OneTouch Technology Redefines Ease-of-Use

Visioneer's award-winning OneTouch scanner was the first multi-button scanner to complete the entire scanning process at the touch of a button. Buttons on other scanners just launch the scanning software, but the OneTouch buttons automate the entire process Scan-to-Finish. The OneTouch product family leads the market in sales for one touch operation scanners with the fastest Scan-to-Finish times.

Scan Directly to Network Drives

PaperPort Deluxe now scans directly to network drives for sharing documents and images within workgroups. It also creates thumb-

nails of 38 file types allowing you to visually organize and manage all of your existing electronic documents and images.

Professional Software Included:

PaperPort Deluxe software gives you crisp on-screen images in just a few seconds. It easily manages all your documents and images and works with most popular applications.

TextBridge Pro 8 OCR turns scanned documents into editable, formatted text. Columns, graphics, text and tables appear right where they should be.

MGI PhotoSuite II SE lets you easily capture, touch-up, transform, organize, create, show and share photos with family, friends and business associates. High quality templates create everything from calendars to business stationary. MGI PhotoSuite II SE delivers unparalleled functionality, productivity and entertainment to home and business users.

PaperPort Links™ let you drag and drop your documents and images instantly onto linked applications.

WebPublisher Link creates HTML links and posts your scanned pictures to the Internet with a few mouse clicks.

PictureWorks PhotoEnhancer™ enhances and edits photos quickly and easily.

Intelligent Imaging Solutions

SCAN
Scan photos, business documents, articles, even 3-D objects directly into the award-winning PaperPort Deluxe software.

COPY/PRINT
Create clean, crisp copies by sending scans to your color or black-and-white printer.

FAX
Transmit your scan directly to your fax software. Simply fill in the fax number on screen and you are done!

OCR
Scan documents directly into award-winning TextBridge 8 optical character recognition software to sidestep the tiresome chore of retyping documents, articles, etc.

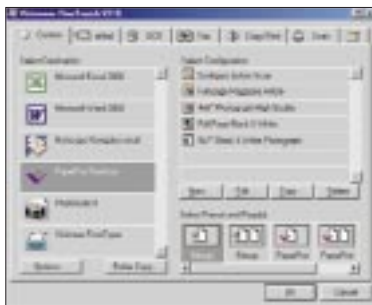

E-MAIL
Scan an image or document and immediately send it to others as an e-mail attachment.

CUSTOM
Configure this button to send your scanned page to the application or device of your choice – a second printer, your favorite image editing software, or to your desktop publishing software.

CANCEL
Instantly cancel any scan in progress.

Effortlessly configure any button using the convenient pop-up menu.

Select the application you wish to link to, adjust the application settings and you are done. Next time you touch this button on the scanner your document or image is automatically routed to the application or device you selected.

Contents

- Visioneer OneTouch 8600 Scanner featuring: 600 x 1200 dpi Optical Resolution, 36-Bit Internal Color, and 7 Button Hardware Controls
- Application Software on CD-ROM
- Parallel and USB Cables
- Installation Guide
- Power Supply

PAPERPORT DELUXE™

Advanced Filing System With Network Support

Easily file your documents and images the way you organize paper documents - in file folders on local or network drives. Put folders within folders and color-code them for easier arrangement.

Manage All of Your Files With Thumbnails

PaperPort Deluxe creates thumbnails for 38 file types including Microsoft Office and other popular image file formats.

Quickly Fill Scanned Forms

FormTyper™ automatically converts scanned forms into electronic forms, including "Tab and Type" data fields.

Drag and drop to your favorite Windows® applications

PaperPort Deluxe automatically builds graphical links to supported installed applications. Simply drag a document thumbnail onto the link icon and your document is on its way to that application! PaperPort Deluxe works with hundreds of applications including most popular image-editing, office productivity, fax and e-mail applications.

TextBridge PRO

TextBridge Pro 8 OCR automatically converts scanned documents into editable text. Columns, graphics, text and tables appear right where they should be. Converts tabular data into word processing documents, cell tables or MS Excel and Lotus 1-2-3 spreadsheets.

MGI PHOTOSUITE II SE

MGI PhotoSuite II SE lets you easily capture, touch-up, transform, organize, create, show and share photos with family, friends and business associates. Minimum System Requirements

- Pentium equivalent processor or higher
- Requires Windows 95/98/NT 4.0
- 32MB of RAM
- 70 MB of available Hard Disk Space
- CD-ROM drive (for installing software on your PC)
- Color monitor
- Windows 98 for USB
- Windows 95/98/NT 4.0 for Parallel

Options

- Color printer (required for color copies)
- Printer (required for black and white copies)
- Fax modem and drivers (required for fax functions)

Product Specifications

Optical Resolution

600 x 1200 dpi

Hardware Supersampling Resolution

1200 dpi

Enhanced Resolution (interpolated)

2400 dpi

Scanner Bit Depth (color)

36-bit internal (over 68 billion colors)

Scanner Bit Depth (grayscale)

12-bit internal (4096 shades of gray)

Output Bit Depth

24-bit color, 8-bit grayscale

Scanning Area

Up to 8.5"x11.69" (A4/letter) (21.6 cm x 29.7 cm)

Scan Method

Fast single pass

Compression

On-board Visioneer JPEG Enhancement Technology (JET)

Control Method

7 Buttons, TWAIN

Interface

USB or Parallel Port

Driver

TWAIN with advanced scanning interface

Light Source

Cold cathode fluorescent lamp

Dimensions

16.7" x 11.7" x 3.7" (42.7cm x 29.7cm x 9.4cm)

Weight

6.2lbs. (2.8 kg)
