The Visioneer® OneTouch™ technology is changing the way people think about and use scanners, thanks to its revolutionary integration of hardware and software. The OneTouch 8650 with built-in Automatic Document Feeder (ADF) is not just an incredibly powerful way to scan multi-page documents; it is the faster, smarter, easier way to fax, copy, e-mail, or store documents and images. With its dedicated function buttons and powerful software integration, it is the office tool you have been waiting for.

Built-in Automatic Document Feeder Makes Scanning Multi-page Documents Simple
The built-in Automatic Document Feeder allows one touch scanning of up to 50 pages at a time. With the 8650 ADF, you are able to scan up to legal sized (8.5 x14) documents. The 600 x1200 dpi Visioneer OneTouch 8650 delivers lightning-fast 36-bit scans with Visioneer’s JET compression engine, which makes the 8650 scan up to twice as fast as the leading SCSI-based scanner. It has seven convenient buttons that make faxing, copying, OCR, e-mailing and storing images and text effortless.

Easy to Set Up and Use
Just install the software, plug the Visioneer OneTouch 8650 into your computer’s USB or parallel port and you are ready to scan! There is no need to open the computer to install an interface card, or worry about IRQs, DMAs, SCSI IDs or other settings.

Visioneer’s Breakthrough OneTouch Technology Redefines Ease-of-Use
Visioneer’s award-winning OneTouch scanner was the first multi-button scanner to complete the entire scanning process at the touch of a button. Buttons on other scanners just launch the scanning software, but the OneTouch buttons automate the entire process from Scan-to-Finish. The OneTouch product family leads the market in sales for one touch operation scanners with the fastest Scan-to-Finish times.

Scan Directly to Network Drives
PaperPort Deluxe now scans directly to network drives for sharing documents and images within workgroups. It also creates thumbnails of 38 file types allowing you to visually organize and manage all of your existing electronic documents and images.

Professional Software Included:
PaperPort Deluxe software gives you crisp on-screen images in just a few seconds. It easily manages all your documents and images and works with most popular applications.
TextBridge Pro OCR turns scanned documents into editable, formatted text. Columns, graphics, text and tables appear right where they should be.
MGI PhotoSuite II SE lets you easily capture, touch-up, transform, organize, create, show and share photos with family, friends and business associates. High quality templates create everything from calendars to business stationary. MGI PhotoSuite II SE delivers unparalleled functionality, productivity and entertainment to home and business users.
PaperPort Links™ let you drag and drop your documents and images instantly onto linked applications.
WebPublisher Link creates HTML links and posts your scanned pictures to the Internet with a few mouse clicks.
PictureWorks PhotoEnhancer™ enhances and edits photos quickly and easily.

Revolutionary OneTouch Technology
Scan up to legal size documents using the ADF
50 page capacity, 3ppm ADF
Supports Windows® 95/98/ NT 4.0/ 2000
Includes USB and parallel interfaces
600 x 1200 dpi optical resolution
1200 dpi hardware supersampling
36-bit color (12-bit A/D converter recognizes over 68 billion colors internally)
Lightning Fast with Visioneer JET Compression
Fastest “Scan to Finish” time

Featuring:
PaperPort® Deluxe™ Software
The world’s leading software for managing documents and images
TextBridge® Pro OCR
Incredible speed and accuracy on real-world documents
MGI PhotoSuite™ II SE
Delivers unparalleled functionality and productivity to business users

PLUS!
WebPublisher Link
PictureWorks™ PhotoEnhancer™
Business Scanning Made Simple

Scan photos, business documents, articles, even 3-D objects directly into the award-winning PaperPort Deluxe software.

Copy/Print
Create clean, crisp copies by sending scans to your color or black-and-white printer.

Fax
Transmit your scan directly to your fax software. Simply fill in the fax number on-screen and you are done!

OCR
Scan documents directly into award-winning TextBridge Pro optical character recognition software to sidestep the tiresome chore of retyping documents, articles, etc.

E-mail
Scan an image or document and immediately send it to others as an e-mail attachment.

Custom
Configure this button to send your scanned page to the application or device of your choice—a second printer, your favorite image editing software, or to your desktop publishing software.

Cancel
Instantly cancel any scan in progress.

Effortlessly configure any button using the convenient pop-up menu.
Select the application you wish to link to, adjust the application settings and you are done. Next time you touch this button on the scanner your document or image is automatically routed to the application or device you selected.

Contents
- Visioneer OneTouch 8650 Scanner featuring:
  - 600 x 1200 dpi Optical Resolution, 36-Bit Internal Color, and 7 Button Hardware Controls
  - Application Software on CD-ROM
  - Parallel and USB Cables
  - Installation Guide
  - Power Supply

Minimum System Requirements
- Pentium equivalent processor or higher
- Requires Windows 95/98/NT 4.0/2000
- 32MB of RAM (64MB for NT 4.0 or Win 2000)
- 70 MB of available Hard Disk Space
- CD-ROM drive (for installing software on your PC)
- Color monitor

ADF Capacity
50 sheets of 20 lb paper

Scan Method
Fast single pass

Compression
On-board Visioneer JPEG Enhancement Technology (JET)

Control Method
7 Buttons, TWAIN

Interface
USB or Parallel Port

Driver
TWAIN with advanced scanning interface

Light Source
Cold cathode fluorescent lamp

Dimensions
16.7" x 12.7" x 7" (42.4 cm x 33 cm x 17.8 cm)

Weight
10.9 lbs (4.94 kg)

Options
- Color printer (required for color copies)
- Printer (required for black and white copies)
- Fax modem and drivers (required for fax functions)

Specifications

- Product Specifications
  - ADF Speed: 35ppm at 300 dpi black and white
  - Optical Resolution: 600 x 1200 dpi
  - Hardware Supersampling Resolution: 1200 dpi
  - Enhanced Resolution (interpolated): 2400 dpi
  - Scanner Bit Depth (color): 36-bit internal (over 68 billion colors)
  - Scanner Bit Depth (grayscale): 12-bit internal (4096 shades of gray)
  - Output Bit Depth: 24-bit color, 8-bit grayscale
  - Scanning Area (without ADF): 8.5" x 11.99" (A4 letter) (21.6 cm x 29.7 cm)
  - ADF Maximum Document Size: 8.5" x 14"
  - ADF Minimum Document Size: 4.7" x 7.9"

- Options
