

Software Installation Guide

Visioneer® 7900 Tag That Photo Scanner

Your Visioneer® 7900 Tag That Photo Scanner includes a powerful suite of software applications to support the digitization of your cherished photos, important documents and critical data. Below is a summary of the available software:

RECOMMENDED DOWNLOADS FOR VISIONEER 7900 TAG THAT PHOTO SCANNER

Scanner Driver (required)

Visioneer® OneTouch

Powerful and easy-to-use scan workflow application. Visioneer OneTouch is pre-configured for nine (9) of the most common jobs and can be fully customized with your preferred settings, include file formats, image quality, file naming and destinations. All available with 'OneTouch' of a button. www.visioneer.com/OneTouch

Tag That Photo™

Tag That Photo is a photo management solution with a powerful face recognition engine at its core. It is a 64-bit application for Windows and designed for photo enthusiasts who value their time, want face tagging software that is truly automated and desire a solution that allows them to retain control of their precious photo memories. [A one-year subscription to Tag That Photo software is included with your Visioneer scanner.](#)

ABBYY® Business Card Reader

Save time and effort managing critical contact information. ABBYY Business Card Reader scans and recognizes contact data from your business cards, automatically creating contact records that can be saved directly to your Contacts or exported to other applications.

ADDITIONAL DOWNLOAD OPTIONS

Visioneer® Organizer AI

Visioneer Organizer AI's intelligent classification engine observes your existing files, then automatically learns, categorizes and tags similar files as they are saved. Organizer AI includes flexible Fast Search and File Analysis tools, as well as easy file conversion, a built-in PDF editor and Quick Save-to-Cloud capability. www.visioneer.com/OrganizerAI

Software installation

1. Download and run the Visioneer Update utility at www.visioneer.com/install.
2. Connect the AC adapter to the scanner and an outlet. Then connect the USB cable to the scanner and your computer.

3. When prompted, select your device from the list of devices available to be updated, then click **Proceed**.

4. Select the scanner driver and any of the included applications you wish to install. Click **Download**.

5. Once download is complete, click **Install** and follow the installation prompts for each application.

Tag That Photo software installation

1. Select the Tag That Photo software components you wish you install. Click **Next**.

2. Choose the install location for the software on your device. Click **Install**.
