Your papers can become searchable and editable.

Would you want the paper on your desk and in your file cabinets to be searchable? Would it not be fantastic to instantly locate those files and print them out, email, or edit them as needed. Sounds futuristic at best, doesn't it? With the **Visioneer®** **Patriot™ D40** duplex color scanner and its powerful software bundle, you can scan and do all of the above, plus more.

The **Patriot D40** includes Visioneer One-Touch® technology, and an advanced TWAIN™ driver that will allow you to communicate with hundreds of enterprise content management (ECM) and document image management (DIM) software solutions with the press of a single button. It will not only make your paper more productive but make you look good too.

Most new users in document imaging are not scanner experts, so simplified, point-and-click solutions that deliver high quality images and integration with business applications are in demand. The **Patriot D40** is a high speed, duplex color scanner that offers convenience and connectivity. With

an amazingly small footprint, the scanner fits comfortably on any desk making it the perfect solution for small and large paper-intensive businesses that desire the capability to quickly convert paper documents into searchable PDF files. Corporations within the banking, education, energy, financial, government, healthcare and manufacturing industries can greatly benefit from the 10,000 pages per day scanning ability and the reliable paper-handling everything from business cards and checks to legal-sized documents and long medical or field charts.

The **Visioneer Patriot D40** color scanner scans up to 80 images per minute (ipm) @300 dpi, 140 ipm @200 dpi, includes an 80-page automatic document feeder and has the ability to automatically scan documents into search-able PDF files through a Hi-Speed USB 2.0 connection. Designed specifically for desktop use, the **Patriot D40** incorporates Visioneer OneTouch technology for eliminating multiple steps in sending scanned documents to pre-determined applications or devices.
