visioneer®

Perfect for the busy professional needing a fast and reliable mobile scanner.

Powered through the USB port of your PC or Mac, the **Visioneer**® **RoadWarrior™ 4D** scans on the go. Quickly scan, edit, file and store all of your documents, including plastic ID cards, photos, articles and brochures no matter where you are.

Once all of your papers are scanned and organized, you can easily send them and share the information they contain with your team, clients or headquarters. When you scan documents into a searchable PDF format, the document image and the text on it are searchable and shareable with ease.

The **RoadWarrior™ 4D** fits neatly on a desk and packs easily alongside your laptop or in a briefcase for travel. Weighing a little more than a small bottle of water, it includes robust PC and Mac TWAIN drivers, and scans cards as small as 1.5" and documents up to 8.5" (216 mm) wide and 32" (813 mm) long.

The **RoadWarrior™ 4D** produces clear and sharp scans of any document in color or black and white. Worried that your highlighted notes from the meeting won't scan clearly? What about the receipt that was folded in your pocket? Real world documents are never a problem for the **RoadWarrior™ 4D**. Visioneer driver technology enables the scanner to instantly improve the visual clarity of every scanned image. You get perfect scans from imperfect originals.

RoadWarrior™ 4D includes a powerful suite of bundled software designed to help you organize your documents and find the information that's on them. The bundle includes Visioneer OneTouch®, Visioneer Acuity, ABBYY® Fine Reader OCR software, and TWAIN™ DriverPLUS, ICA and WIA drivers.
